

FastTrackGov Business Licensing Solutions

FastTrackGov from Mitchell Humphrey provides municipal and county government with a full suite of automated business license issuance, tracking, and reporting tools.

With **FastTrackGov**, organizations are able to improve control over the entire process while increasing productivity and efficiency, expediting revenue collection efforts, and enhancing citizen satisfaction.

FastTrackGov Benefits Business Owners

Provides the tools you need to simplify your application and renewal processes; get accurate, up-to-date application/renewal status reports; and reduce the time required to receive your business license(s).

FastTrackGov Benefits Clerks and Administrators

Provides the tools you need to gain control of the business license processing effort; reduce redundant data entry; ensure the timely flow of applications through your process; and provide citizens with quick, up-to-date status reports.

FastTrackGov Benefits Government Officials

Provides the tools you need to maximize business licensing-related revenues, present your positive results to officials and constituents, and improve the satisfaction of your citizens and staff members.

Key Benefits of FastTrackGov Business License include:

- Convenient application and status checking for citizens through an easy-to-use public interface
- Fast-tracking of business license application processing
- Automation of workflow for license applications, payment processing, renewals, approvals, inspections
- Maximized revenues through numerous automated processes
- Improved control and reduced manual effort
- Tracking and reporting of key metrics associated with your organization's efforts
- Enhanced citizen and employee satisfaction
